The mission of CU Denver Undocumented Student Services is to support students at all intersections of documentation and advocate for continuous improvements in the DREAMer’s college experience while obtaining their college degrees.

We do this by:

- Offering peer support and professional development, a resource of knowledge on related career pathways, and personalized assistance regarding any challenges students may be facing in their ability to persist in programs.
- Providing and coordinating programs, workshops, and events to support student needs and educate the campus community.
- Working with campus partners to remove barriers for success and to address students’ financial needs.
